## What's Inside Fast Facts for the Nurse

Fast Facts for the Nurse is divided into 10 sections, each of which covers a different aspect of nursing practice. These sections include:

- **Basic Nursing Skills:** This section covers the essential skills that all nurses need to know, such as taking vital signs, administering medications, and starting IVs.

- **Medical-Surgical Nursing:** This section covers the most common medical and surgical conditions that nurses encounter, such as diabetes, heart disease, and cancer.
- **Critical Care Nursing:** This section covers the care of critically ill patients, such as those who are in the ICU or emergency department.
- **Pediatric Nursing:** This section covers the care of children, from newborns to adolescents.
- **Obstetrical Nursing:** This section covers the care of women during pregnancy, labor, and delivery.
- **Psychiatric Nursing:** This section covers the care of patients with mental health conditions.
- **Geriatric Nursing:** This section covers the care of older adults.
- **Emergency Nursing:** This section covers the care of patients in emergency situations.
- **Community Health Nursing:** This section covers the care of patients in the community setting.
- **Nursing Research:** This section covers the basics of nursing research and how it can be used to improve patient care.
