In his latest book, *Hold the Enlightenment*, Tim Cahill takes us on a journey around the world in search of the elusive 'enlightenment.' Through his encounters with extraordinary people and cultures, he discovers that the true path to enlightenment lies not in grand gestures or profound insights, but in the simple act of living.

Cahill's journey begins in the Our Book Library rainforest, where he meets a shaman who teaches him the importance of living in the present moment. He then travels to the Himalayas, where he learns the value of compassion and service to others. In India, he learns the importance of meditation and self-reflection. And in Japan, he learns the importance of finding beauty in the everyday.

Through his travels, Cahill comes to realize that the true path to enlightenment is not a linear one. It is a journey that is full of twists and turns, ups and downs. But it is a journey that is worth taking. For at the end of the day, it is the journey itself that matters.

Hold the Enlightenment is an inspiring and unforgettable account of human resilience and the triumph of the human spirit. It is a book that will stay with you long after you finish reading it.
