A new patient arrived at the hospital. He was a young man, and he was very sick. The nurse was assigned to take care of him, and she quickly realized that there was something wrong with him. He was not like the other patients she had cared for. He was distant and withdrawn, and he seemed to be hiding something.

The nurse tried to talk to the young man, but he wouldn't say much. He just kept staring at her with his cold, empty eyes. The nurse began to feel uneasy, and she started to suspect that the young man was dangerous.

One night, the nurse was making her rounds when she saw the young man standing in the hallway. He was holding a knife, and he was staring at her with a murderous look in his eyes. The nurse turned and ran, but it was too late. The young man caught up to her and stabbed her in the back.

The nurse died instantly. The young man was never caught, and the mystery of his identity remains unsolved.

The Nurse is a chilling tale of murder, betrayal, and the lengths people will go to protect their secrets. It is a story that will stay with you long after you finish reading it.
